

Why Ship From Store?

Customers expect fast deliveries and warehouses alone can't keep up.

Ship From Store makes every store a mini-fulfillment hub, helping you deliver faster, reduce warehouse congestion, and engage store teams.

Easy to use, the lightweight Fulfillment App lets store staff fulfill without operational overhead.

Pick easier

Use batch picking to speed up fulfillment. Sort orders by shipping method to meet tight SLAs.

Assign picklists to guide store staff so they know exactly what to pick from where. Scan and pick with full-size images and reduce mistakes.

Pack smarter

Rate shop to choose the most cost-effective carrier that still meets SLA, print labels in advance, auto send order tracking emails to customers.

Ship faster

Auto ship orders with tracking codes and sync across systems. Send tracking details to customers automatically.
